RESIN FLOOR PRODUCTS

The experience that ICA has accumulated since 1971 in the formulation and manufacture of coatings has allowed the company to develop a range of resin floor products.

ICA's high-quality range is exceptionally easy to use, offering unrivalled durability, resistance and aesthetic impact. Thanks to the versatility of these products, it is possible to generate an infinite variety of effects, endowing floors with a characteristic sense of continuity.

Available in an extensive array of colors, ICA's products are ideal for the creation of a plethora of chromatic effects, giving free rein to the creativity of architects and designers. ICA's resin floor products are found in a wide spectrum of environments, from homes to business premises and industrial facilities.
